

Instructions:

1. IPO crt reflections error logs

Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	SelectionSort	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
User starts program and inputs amount of values for array	Array of numbers is randomly created with as many indexes as user said. Program sorts array from least to greatest numbers	Outputs both original array and sorted array

IPO CHART

Program name:	Coder	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
User inputs message they choose to encipher	String is split into an array of characters. Loops through each character and adds 2 to its unicode value	Outputs encrypted message.
